Looking for fulltime opportunities
Berlin, Berlin, Germany

Experience

Inditex
Trainee Lead In Fashion
April 2026 - June 2026 (3 months)
Berlin, Germany

Project: Successfully completed 3 months leadership program focused on training selected individuals to become future managers within the organisation.
Learned and trained to work on the analytics of the commercial and operations parts of running a retail store.
Identified a bottleneck in the business onboarding process and bridge the gap by documenting and supporting technical decisions around AI Architecture and workflows
Used the inbuilt organisation's app to improve and provide real time metrics and solutions for the better performance by using workflow agents and taking the lead to define orchestrating architecture

UNIQLO
Sales Associate
September 2025 - December 2025 (4 months)
Berlin, Germany

Advised customers in both German and English, identifying individual needs and preferences on a busy sales floor.

•

Presented and maintained the product offering, and operated the cash register as part of daily sales duties.

•

Supported stock keeping, distribution and replenishment of goods, and carried out sales preparation and follow up tasks, including checking the completeness of product displays on shelves and the sales floor.

•

Took customer reservations, maintained relationships with regular customers, and handled orders for the in-store tailoring service.

•

Took responsibility for order and cleanliness in my assigned area, working independently and reliably even during high pressure periods.

beets&roots
Kitchen Staff Member
August 2023 - September 2025 (2 years 2 months)
Berlin, Germany

ila-solution GmbH
Warehouse Associate
August 2022 - September 2023 (1 year 2 months)
Berlin, Germany

- Sorting and Scanning of Clothes
- Labeling of Prices
- Unpack Clothes
- Put Clothes in Storage
- Provision of Goods for Sale Room

GoBOLT
Front End Engineer
September 2020 - November 2021 (1 year 3 months)
Gurugram

-Upgraded two SaaS products with React 17, ES13, Redux, and Hooks, making them more user-friendly and easier to maintain.
-Built a trip optimization tool that boosted route efficiency by 34% and reduced logistics costs through smarter data structures.
-Created a scalable front-end for real-time tracking and data visualization, including advanced filtering and sorting features.
-Streamlined shipment and invoicing flows with React.js, GraphQL, and API integrations, increasing operational efficiency by 27%.

NorthLoop
React Front End Engineer
October 2019 - August 2020 (11 months)
Gurugram

-Integrated a secure, scalable Stripe payment system, enabling smooth cross-border transactions in 12 countries and boosting payment success rates by 22%.
-Refactored a legacy React 16 project, improving performance, modularity, and maintainability—cutting time-to-market for new features.

-Built reusable, scalable components with React Hooks and TypeScript, making code easier to maintain across the platform.
-Promoted to Frontend Engineer at GoBolt Solutions for consistent high-quality code and strong problem-solving skills.

LeapTure LLC
Junior Front End Developer
August 2018 - September 2019 (1 year 2 months)
Remote

-Developed location-tracking modules with Google Maps API, increasing geolocation accuracy and enabling fast region segmentation.
-Built and integrated robust APIs using Python Flask and React.js for shopping, e-wallet, and location services.
-Created interactive UI components with React 16, ES13, and HTML5/CSS3 to boost user engagement and functionality.
