Summary

Frontend Developer (React/TypeScript) returning to full-time engineering after completing an MSc in IT Management, during which I built hands-on expertise in agentic AI, RAG systems, and LLM integration, now applying that alongside 3+ years of production React experience.

TECH SKILLS

Programming
JavaScript, HTML/CSS, Tailwind, TypeScript, Python, RESTFUL-APIS

Project management
Agile, Scrum

Frameworks / Tools / Databases
ReactJS, Redux, Git, Gitlab, NextJS, SQL

Artificial Intelligence
Agentic AI, Cursor, n8n, Agentic RAG

Relevant Experience

Frontend Engineer, *GoBolt Solutions* 09/2020 – 11/2021
Project: Partners Platform - A Real time Based interactive dashboard to maintain details of partners of the organisation and also keep tabs on routing efficiency. Gurugram, India

- Upgraded two SaaS products with React 17, ES13, Redux, and Hooks, making them more user-friendly and easier to maintain.
- Built a trip optimization tool that boosted route efficiency by 34% and reduced logistics costs through smarter data structures.
- Created a scalable front-end for real-time tracking and data visualization, including advanced filtering and sorting features.
- Streamlined shipment and invoicing flows with JS based ecosystems, GraphQL, and API integrations, increasing operational efficiency by 27%.

React Frontend Engineer, *NorthLoop* 10/2019 – 08/2020
Project: International Money Transfer App - An app to make international money transactions easily with less service fees. Developed high availability React based fintech interfaces supporting international payments across 12 countries, improving transaction success rates by 22% Gurugram, India

- Integrated a secure, scalable Stripe payment system, enabling smooth cross-border transactions in 12 countries and boosting payment success rates by 22%.
- Refactored a legacy frontend project, improving performance, modularity, and maintainability.
- Built reusable, scalable components with Hooks and TypeScript, making code easier to maintain across the platform.
- Promoted to Frontend Engineer at GoBolt Solutions for consistent high quality code and strong problem solving skills.

Junior Frontend Engineer, *Leapture LLC* 08/2018 – 09/2019
Remote

Project: An E-Commerce web app that provides recommendations for everything from cafes to shopping centres in your radius and also provides the best deals for you

- Developed location-tracking modules with Google Maps API, increasing geolocation accuracy and enabling fast region segmentation.
- Built and integrated robust APIs using Python Flask and frontend framework for shopping, e-wallet, and location services.
- Created interactive UI components with React 16, ES13, and HTML5/CSS3 to boost user engagement and functionality.

Additional Experience

Trainee Lead in Fashion, *Inditex* 04/2026 – 06/2026
Berlin, Germany

Project: Successfully completed 3 months leadership program focused on training selected individuals to become future managers within the organisation.

- Identified a bottleneck in the business onboarding process and bridge the gap by documenting and supporting technical decisions around AI Architecture and workflows
- Used the inbuilt organisation's app to improve and provide real time metrics and solutions for the better performance by using workflow agents and taking the lead to define orchestrating architecture

Sales Assistant, *Uniqlo* 09/2025 – 12/2025
Berlin, Germany

- Trained and learned to be a sales assistant in a retail store.
- Managed replenishment, fitting rooms, delivery orders and stock inventory.

Kitchen Assistant (part-time, alongside MSc studies), *Beets&Roots* 08/2023 – 09/2025
Berlin, Germany

- Leading the store operations from planning inventory to stock management

Education

MSc IT Management, *BSBI, Berlin, Germany* 05/2023 – 05/2025
Berlin, Germany

MBA International Marketing (2 semesters), *IUBH, Berlin, Germany* 10/2021 – 03/2023
Berlin, Germany

Bachelor of Technology in Computer Science & Engineering (Division 1st), 08/2014 – 07/2018
AKTU, Ghaziabad, India Ghaziabad, India

PROJECTS AND CERTIFICATIONS

Kanban Board App 07/2026 – 07/2026
Berlin, Germany

An interactive dashboard Kanban App with login features, and drag and drop interactivity to move notes.

Portfolio Website 07/2026 – 07/2026
Berlin, Germany

Built and deployed a RAG based chatbot embedded in my portfolio that answers questions about my career, skills, and experience using structured personal data, with LLM routing via OpenRouter
